What is a Budget Allocation? | Bizfluent

Budget allocation is an important part of all business and not-for-profit financial plans. Budgets are typically set annually and involve allocating anticipated income and resources between different departments and business interests. The amount of funding allocated to each area imposes restrictions on the scope of a department's development.

Budget negotiations are part of the budget allocation process and require working toward a common goal. Depending on how many people are asking for money to fund programs and services, budget cuts are sometimes necessary. A budget committee carefully reviews all requests and then makes recommendations before deciding how funds will be allocated.
