d) the increased and increasing speed of the development of productive forces under monopolistic control also pushed the advanced capitalist countries toward the political control of foreign lands. The search for control over raw materials is yet another reason why capitalism in its monopolistic stage becomes expansionist.

### Dependent Capitalist Development in Latin America

As one of the most striking topics in the contemporary world economy, the discussion on globalization seems to take capitalism as the main dynamic mechanism for its practice process, i.e., capital-driven globalization. Although many researchers have proposed other alternative solutions that are crucial to the development of globalization, relevant research is still very insufficient. Based on ...
