Here are four specific steps that teachers can take to improve their students' math identities, and take the drama out of math class: 1. Throw out

the negativity: Learning happens through struggle, making mistakes and perseverance, but teachers and students don't always understand this reality.

Five ways to take the drama out of math class and add ...

It's putting out information about education and schools; but it's also taking time to consider what parents, teachers, students, and members of the broader public have to say. Unfortunately, some education leaders seem so intent on getting their own message out—often called "messaging"—that they neglect the listening part of the equation.

Getting Your Message Out (and Why It's Not Enough ...
