Kia Sportage Bad Wheel Bearing Diagnosis. Test Drive– The best way to diagnose bearing noise in your Sportage is to take it for a drive. You'll be looking to hear the hum increase as the speed picks up. Jack and Wiggle– With your Sportage on jack stands, you'll want to look and see if the wheel is wobbling at the bearing. If it is, that's proof positive that you need a new wheel bearing.

A lot of the time, a flashing 4WD light is no reason to be alarmed, because it simply means that the system is working as designed. On vehicles where four-wheel drive is only activated on demand — that is to say, when traction conditions require it — this light shows up to tell you that it's been activated. In a way, it's similar to the stability control or traction control lights on ...
