The quality manual template is a supplement to the laboratory quality management system training toolkit, Module 16 - Documents and records. This quality manual template is based on internationally-accepted standards, and provides guidance for public health and clinical laboratories on writing policies and procedures that support a quality management system.

WHO | Quality manual template

Abstract. This compilation of one hundred and forty experiments in pharmaceutical compounding is intended for teaching pharmacy students. The experiments cover a wide range of preparations found in U. S. P. XIII and N. F. VIII, graded from the simple preparation of "waters," "solutions" and "infusions" to more complex preparations such as "vanishing cream" and "tooth paste."

The laboratory provides a research environment for students and faculty to explore issues in contemporary compounding. There are three years of professional students that utilize the lab per week. This affords the opportunity to investigate variations/permutations in compounding techniques and methods, and provides a rich source of data.
