...

The easiest way to record your band for a live stream is to use a mixer with stereo recording capability. This will allow you to create a live mix (much in the same way you create a mix for a live performance). If your band is already gigging and rehearsing, chances are you're already looking for a good mixer.

sound systems.

Live Sound Set UP With Ben And J - YouTube

Try this: get an XLR female to TS (1/4") male converter. Many boards will have a line-in channel that doesn't have an XLR input. You might use that input for an iPod or something, but the tape input will work just as well for that.

Plug the mic (with the

HOW TO SET UP V8 AUDIO SOUND CARD AND BM800

A live sound system is a lot more than just a mixer and your mics. You'll need speakers for sound reinforcement, and if you don't go with in-ears, then you'll need quality stage wedges for monitoring, too. PA speakers today come in a wide range of shapes and sizes.
