Maplet Guide

The Maple Guide is a system that serves to recommend training areas, as well as bosses, for players within a certain level range. You can use this system to teleport to areas near your level, which can be used to access certain other content, such as bosses. You can gain Content Map Stamps for each area above Level 30, which will allow you to teleport to that area whenever you want, even when you are out of that area's level range.

A maplet has the following input and output components: Maplet input. You can pass data into a maplet from data sources or Input transformations or both. If you validate the maplet as a rule, you must pass data into the maplet through an Input transformation. When you use an Input transformation, you connect it to a source or upstream transformation in the mapping.
