The Power BI Desktop shares the same data retrieval and modeling engines as the latest version of SQL Server Analysis Services (SSAS) in tabular mode and Azure Analysis Services, Microsoft's enterprise BI modeling solution. Many BI/IT organizations utilize Analysis Services models as the primary data source for Power BI projects and it's possible to migrate Power BI Desktop files (.pbix) to Analysis Services models, as described in Chapter 13, Scaling with Premium and Analysis Services.

showing June 11th but you should be able to order there too. There was an emphasis on reflecting the latest features, the roadmap, and concepts which will remain applicable over time.

Inside Mastering Power BI - Insight Quest

The Power BI admin should have a clear understanding of the organizational policy on the various tenant settings, such as whether content can be shared with external users. For most tenant settings, the Power BI service administrator can define rules in the Power BI admin portal to include or exclude specific security groups.
