Patents. June 7, 2017 By Eric Misterovich. Any business entity or inventor that is considering securing patent rights for a novel and non-obvious invention needs to know a little bit about the different types of patents that are available from the United States Patent and Trademark Office (USPTO or Patent Office).

As provided by 35 U.S.C. § 101, an invention is "useful" if it provides some identifiable benefit and is capable of use. The majority of inventions are usually not challenged as lacking utility, but the doctrine prevents the patenting of fantastic or hypothetical devices such as perpetual motion machines.
