Sears Tower - Structural Artist of Urban Building Forms

THE FIRST "SEARS TOWER" When business partners Richard Sears and Alvah Roebuck decided to build the first national headquarters for the Sears, Roebuck Co. in 1905, they looked to the skies. The first "Sears tower" stood 12 stories high, overlooking the neighborhood around Homan and Arthington Roads in northwest Chicago.

ENVIRONMENTAL EFFORTS AT THE WILLIS TOWER

The Willis Tower (formerly and informally: Sears Tower, its name until 2009) is a 110-story, 1,450-foot (442.1 m) skyscraper in Chicago. At completion in 1973, it surpassed the World Trade Center in New York City to become the tallest building in the world, a title that it held for nearly 25 years; it was also the tallest building in the Western Hemisphere for 41 years, until the new One World ...

Willis Tower - Wikipedia

Willis Tower is a skyscraper in Chicago, Illinois. Sears, Roebuck and Company paid for it to be built in August 1970. The building was finished in 1973. It was the tallest building in the world from 1973 to 1996. It has 110 levels. From the ground to the roof it is 442 meters (1,450 feet) tall.

Willis Tower - Simple English Wikipedia, the free encyclopedia

The Sears, Roebuck and Company Complex on the west side of Chicago, Illinois is where Sears conducted the bulk of its mail order operations between 1906 and 1993. It also served as the corporate headquarters until 1973, when the Sears Tower was completed. Of its original 40-acre (16 ha) complex, only three buildings now survive, and have been adaptively rehabilitated to other uses.

Sears, Roebuck and Company Complex - Wikipedia

At 1,454 feet and 110 stories tall, the Willis Tower (formerly known as Sears Tower) was the world’s tallest building from its construction in 1974 until 1998. The stepped-back profile, reminiscent of skyscrapers of the 1920s, is a solution to the engineering challenge of supporting such a tall tower.
