JIS-Japanese Industrial Standards

Standards Manual is an independent publishing imprint founded by designers Jesse Reed and Hamish Smyth in New York City in 2014. Our mission is to archive and preserve artifacts of design history and make them available to future generations.

Standards Manual

JIS covers industrial and mineral products, comparable to standards established by various industrial associations for specific needs, or standards established and used by companies (operation manuals, products specifications etc.). The need for common practices in companies of the same industrial sector leads to the establishment of industrial association standards, and the same need in terms of wider applications promotes the establishment of JIS.

JIS - Japanese Industrial Standard / Japanese Standards ...

The Japanese cross-point drivers also have the self-centering and quick tool and screw engagement, however the "JIS" (Japanese Industrial Standard) design allowed torque and over-tightening to be controlled by the operator and not at the head of the screw.
