Give us a call whenever your ongoing marketing demands require the best exhibit service your promotional dollars can buy.

The Bird And The Elephant

Elephant birds have been extinct since at least the 17th century. Étienne de Flacourt, a French governor of Madagascar in the 1640s and 1650s, mentions an ostrich-like bird said to inhabit unpopulated regions, though it is unclear whether he was repeating folk tales passed on from generations earlier. In 1659, Flacourt wrote of the "vouropatra - a large bird which haunts the Ampatres and ...

Elephant bird - Wikipedia

Elephant bird, any of several species of extinct giant flightless birds found as fossils in Pleistocene and Holocene deposits on the island of Madagascar. Modern classifications place elephant birds in three genera, with Vorombe titan being both the largest elephant bird and the largest bird that ever lived.

elephant bird | Summary & Facts | Britannica

Aepyornis is a genus of aepyornithid, one of three genera of ratite birds endemic to Madagascar until their extinction sometime around AD 1000. The species A. maximus weighed up to 540 kilograms (1,200 lb), and until recently was regarded as the largest known bird of all time. However, in 2018 the largest aepyornithid specimens, weighing up to 730 kilograms (1,600 lb), were moved to the ...
